

BROLINK

Mobile Application Process

Downloading the Help 247 App:

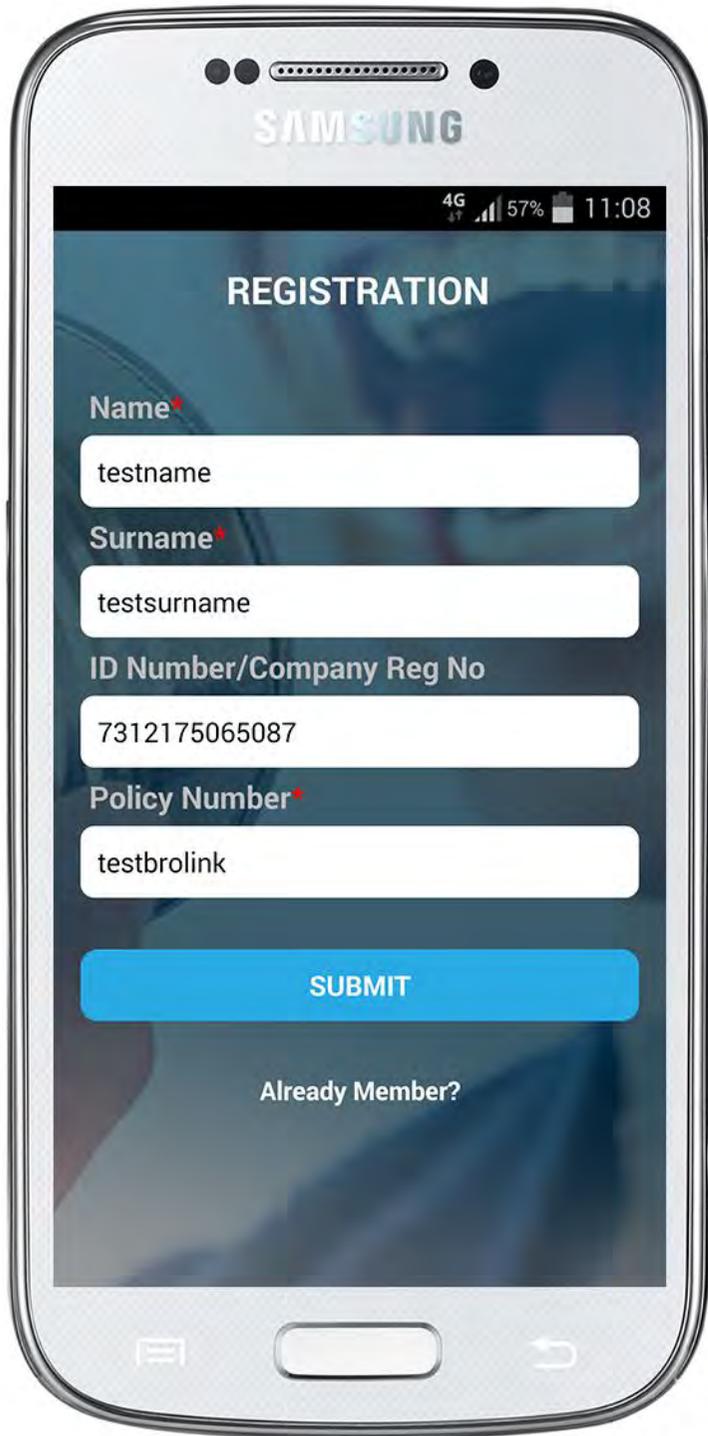

Go to the Apple or Android App store.

Search “Help247” from the App store.

Click on “Install”

The Help247 App and features will need to be linked to a broker or insurer that has a unique programme with Customer Loyalty Consultants.

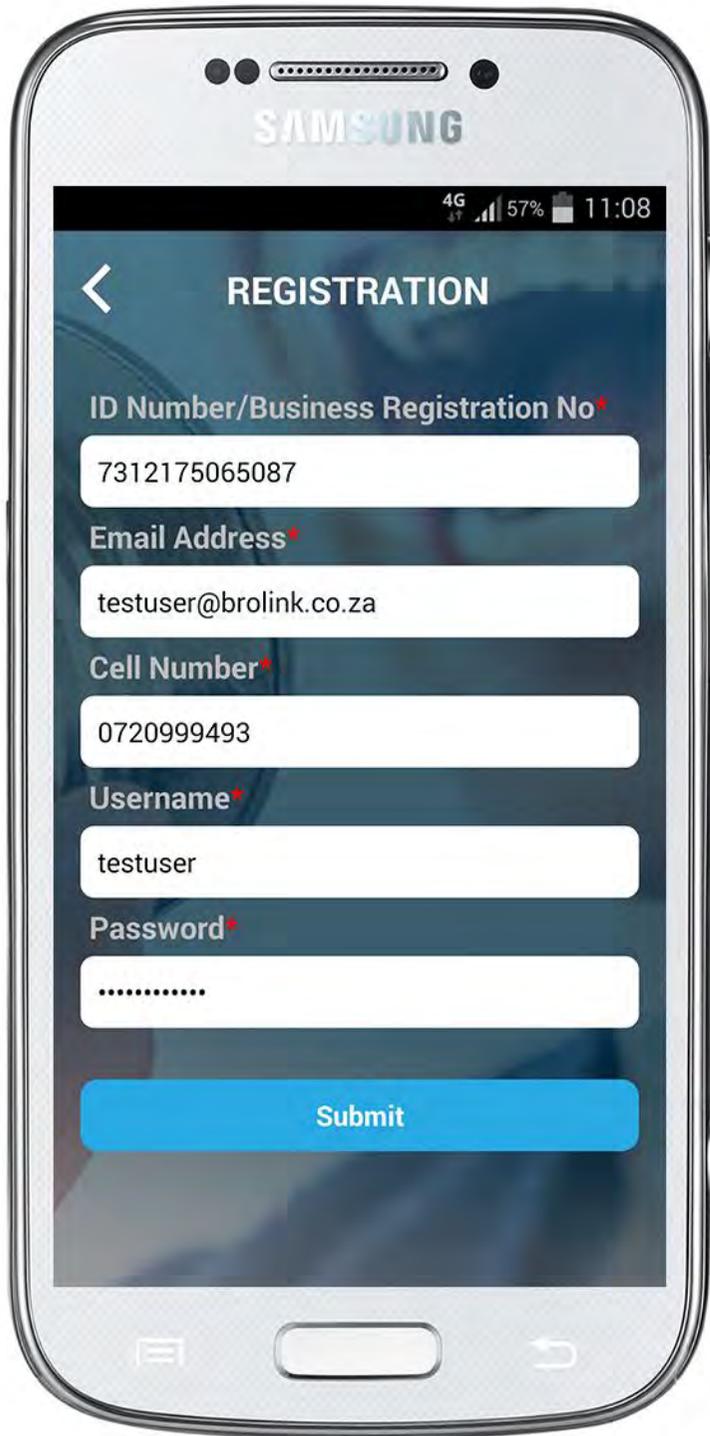

Registration Process:

Once the App has downloaded, the client has to register with the following:

- Name/Company Name
- Surname
- ID / Company Reg No.
- Policy Number

Click on “Submit”

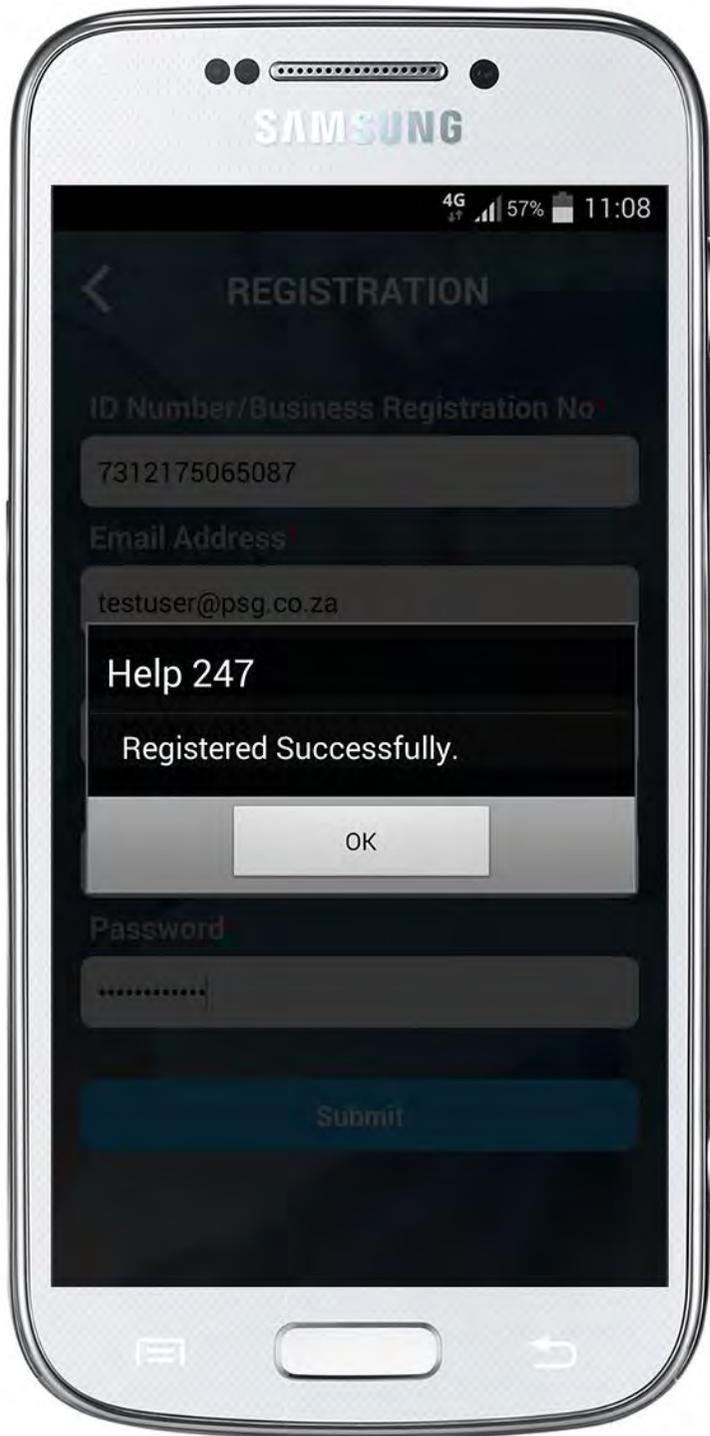

Registration Process:

Add the following information:

- ID No / Business Reg No.
- Email Address
- Cell No.
- Username and password

Click on “Submit”

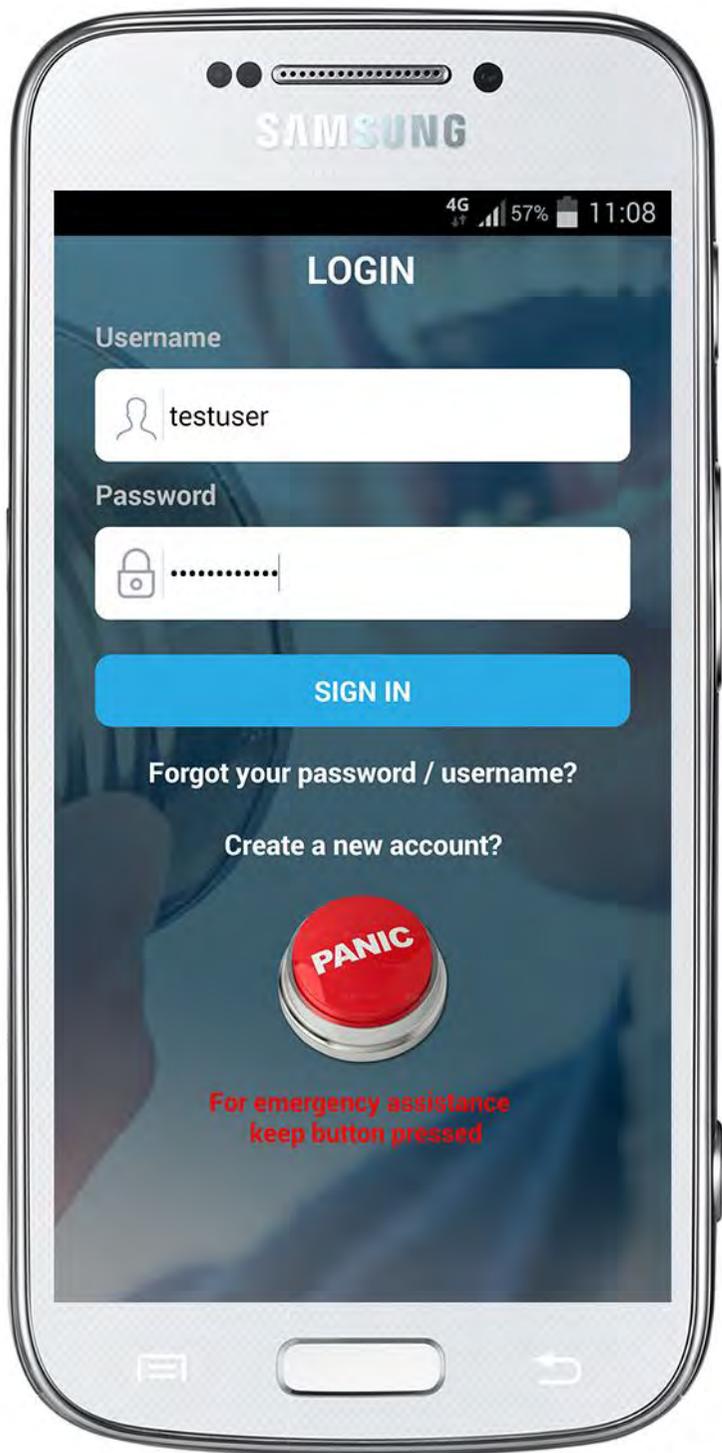

Registration Process:

The App will indicate to the client that the registration process was successful.

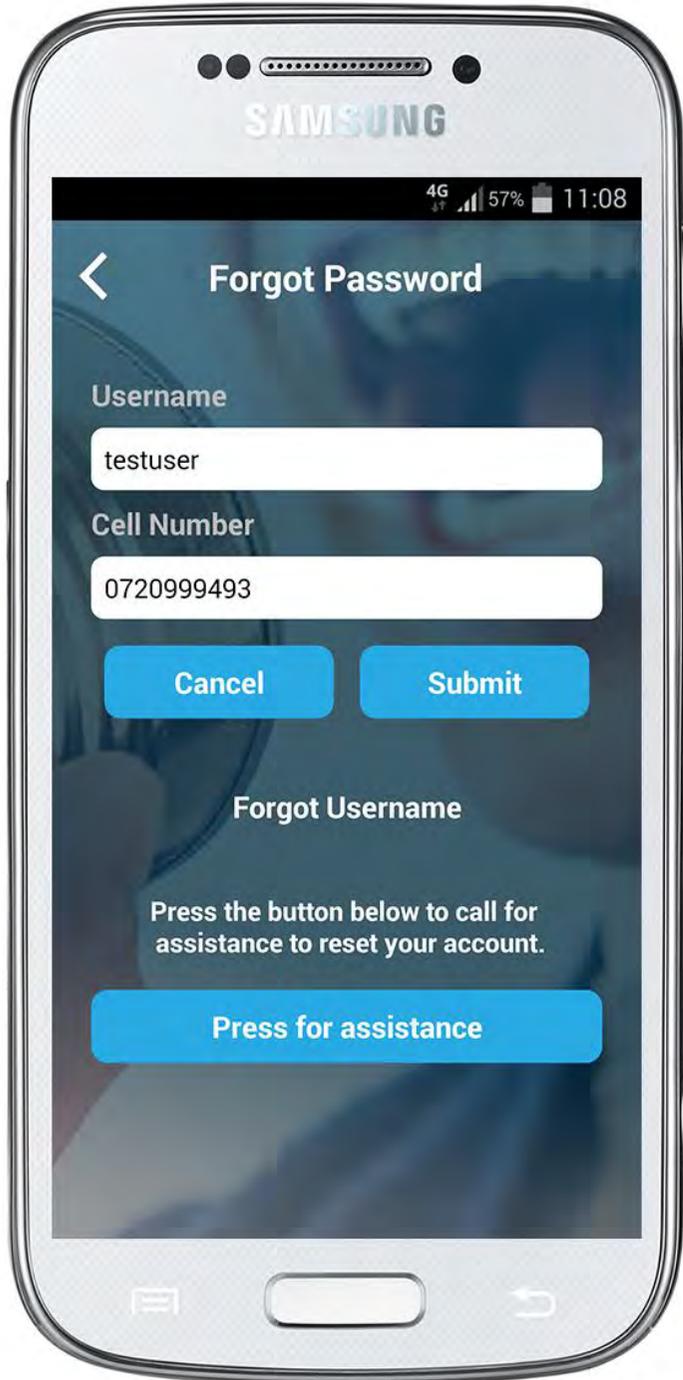

Login

Username and password will be requested when logging in.

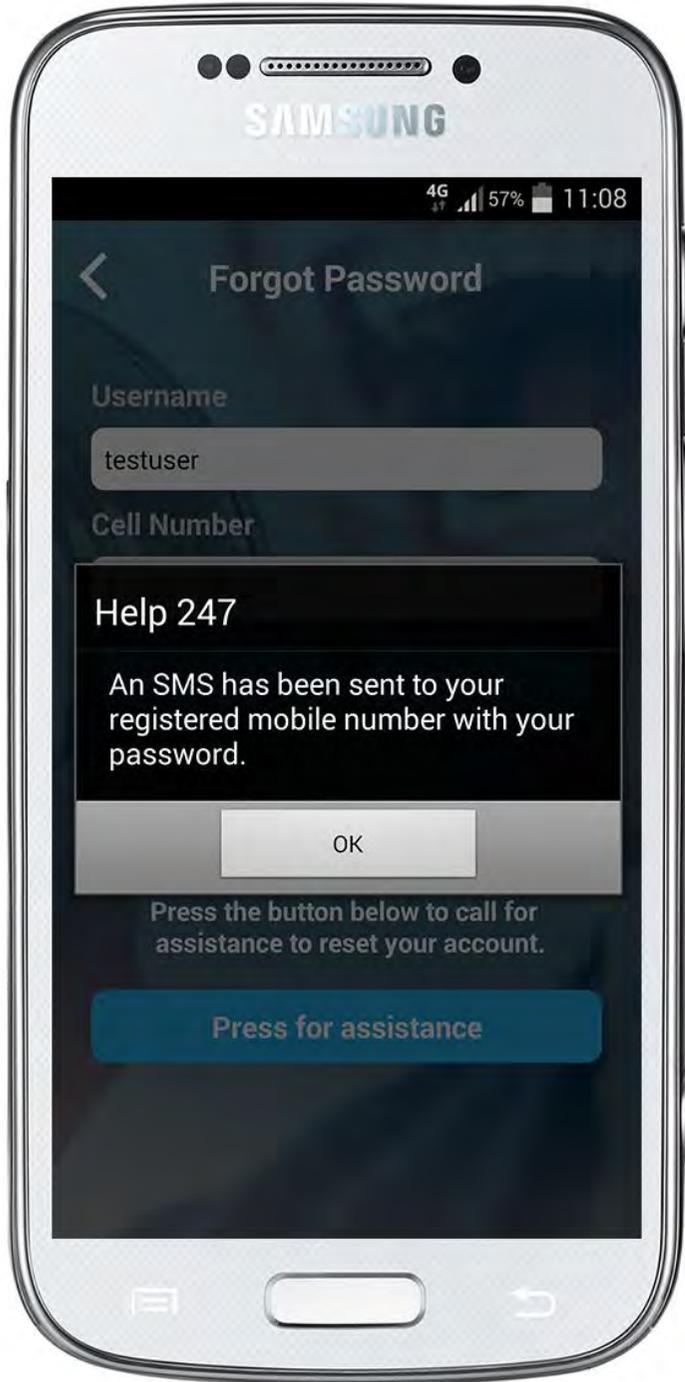

Forget Password

If the client in future forgets the username and password the client will click on forget username and the username and password will be sent to the client via sms

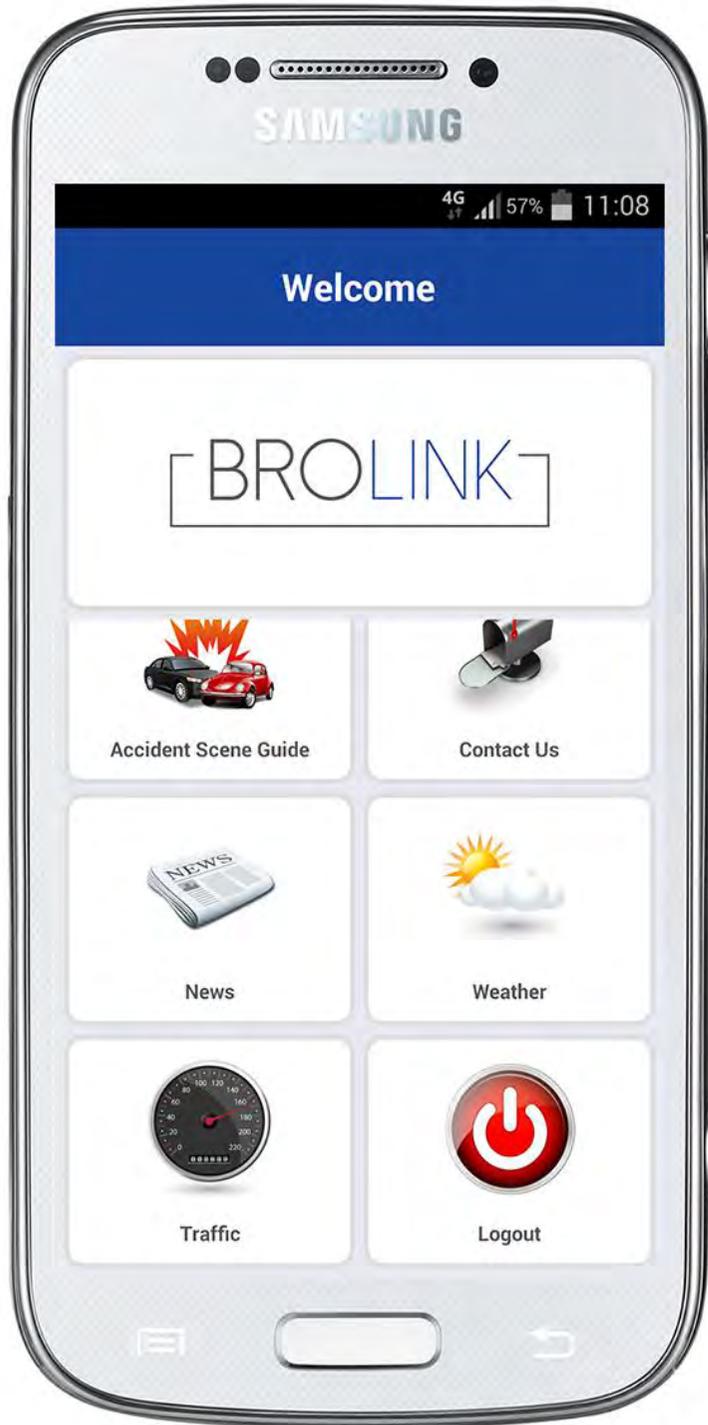

Home Page:

Once login was successful, this home page will appear.

The logo and scheme colour will be as per pre arrangement with client.

Home Page:

When scrolling down on home page.

Panic Button:

The “Panic Button” will GPS coordinate the clients location.

When pressing the “Panic Button” for 2 seconds, the button will turn green and display the message **“A customer relations consultants will contact you shortly”**.

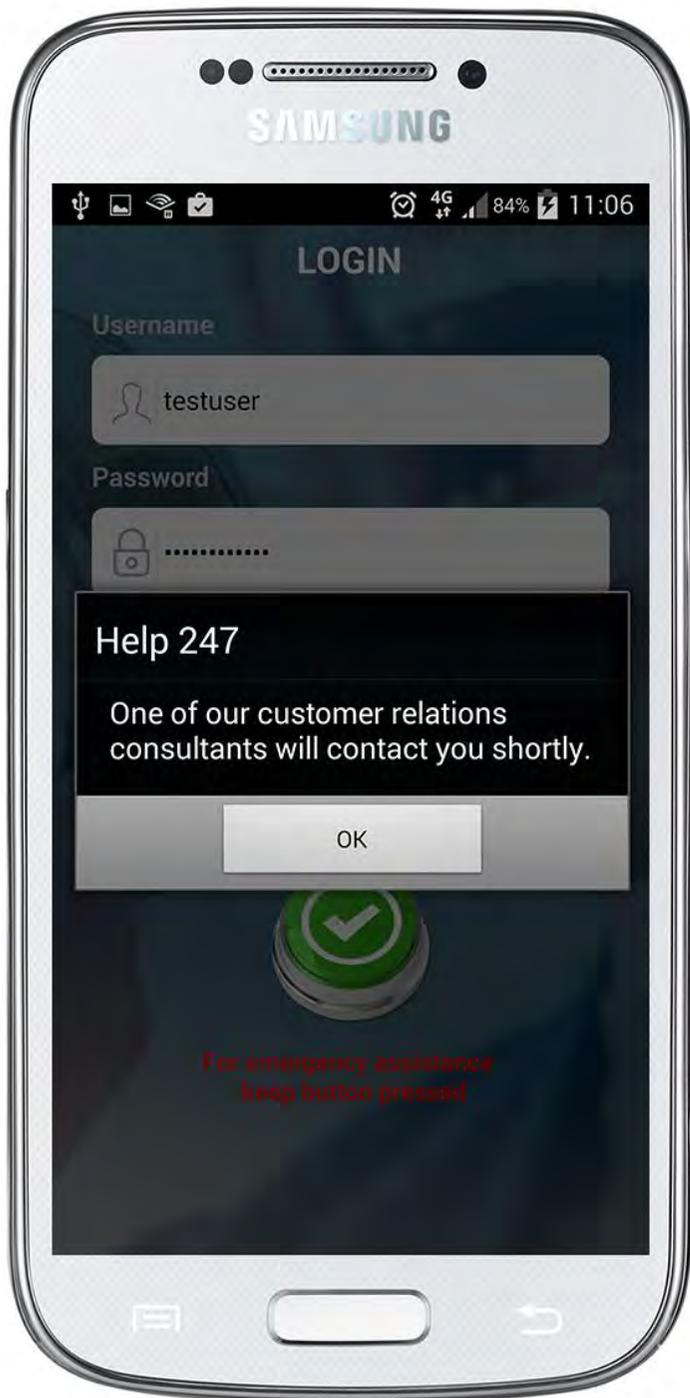

Panic Button:

Panic Button shows green to indicate that the panic was successful.

Panic Button:

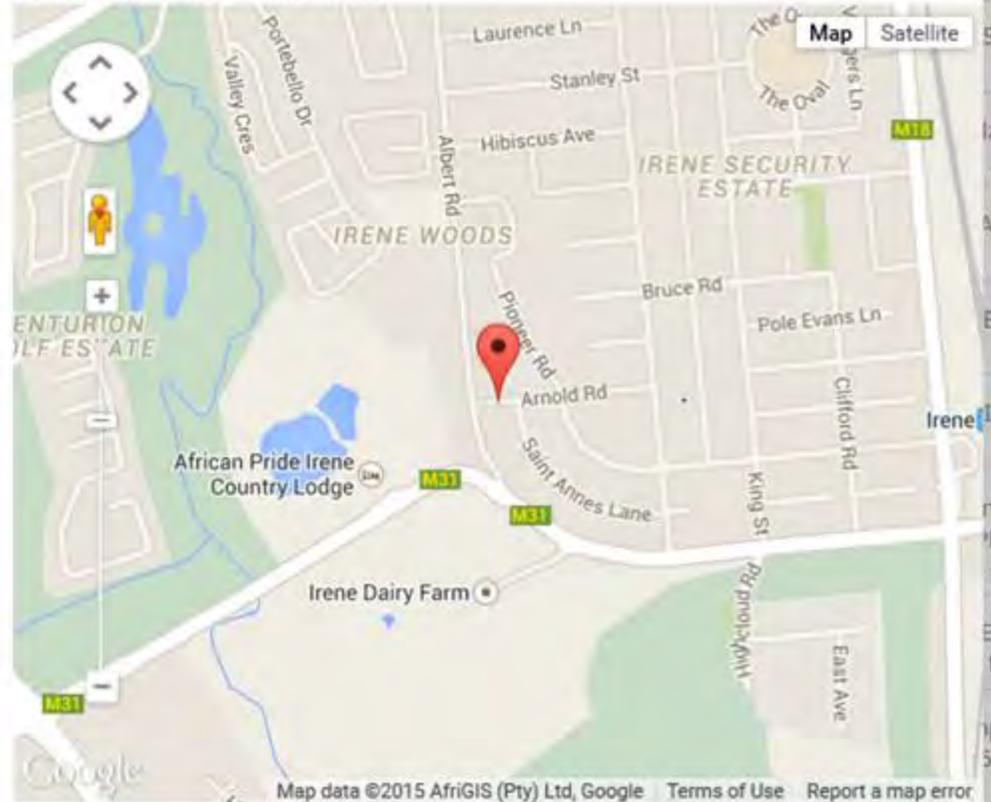

When pressing the “Panic Button” for 2 seconds, the button will turn green and display the message **“A customer relations consultants will contact you shortly”**.

PANIC ALERT - AON Network Blue

(Master Member) Mark Kruger submitted a panic

Ref Number: 196106

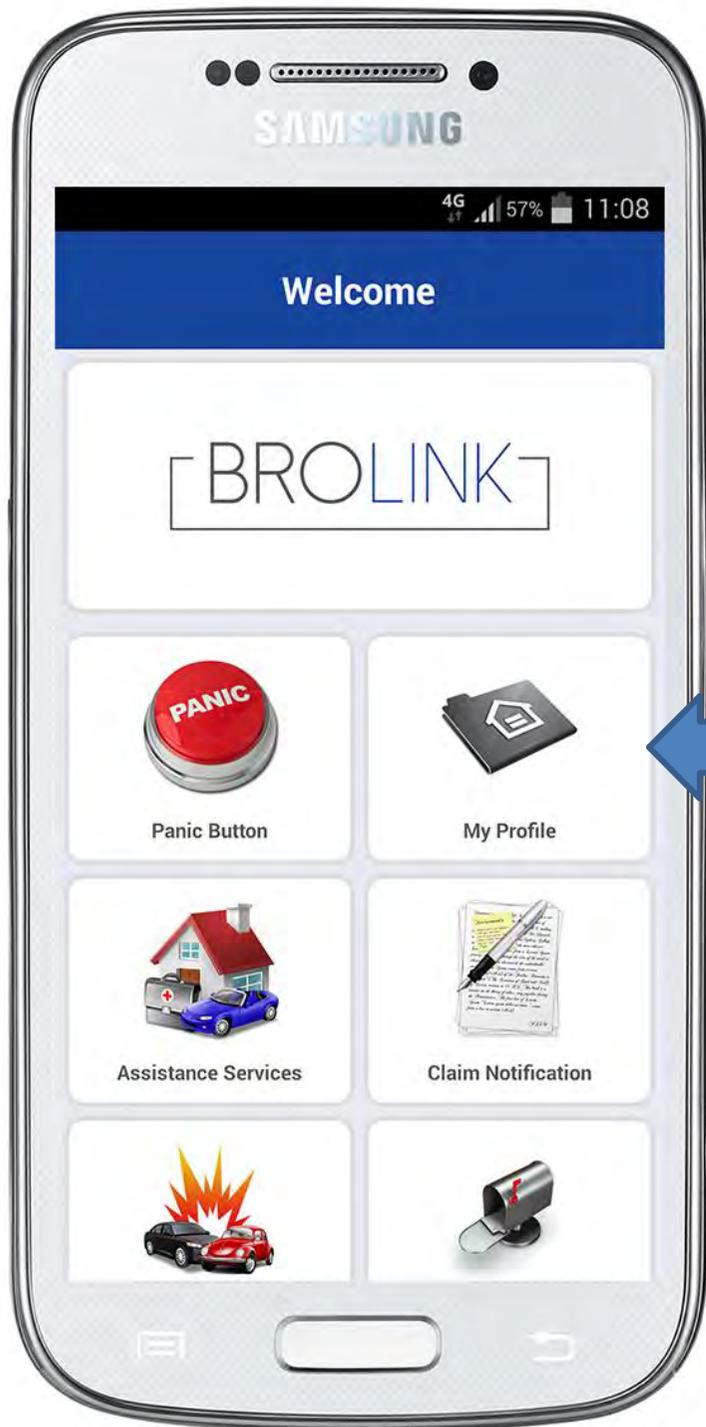

Panic Button in contact centre:

CLC's contact centre will receive the GPS coordinates of the client, as well as client information.

This automatically logs a call on CLC's system.

The contact centre will then phone the client to log a call.

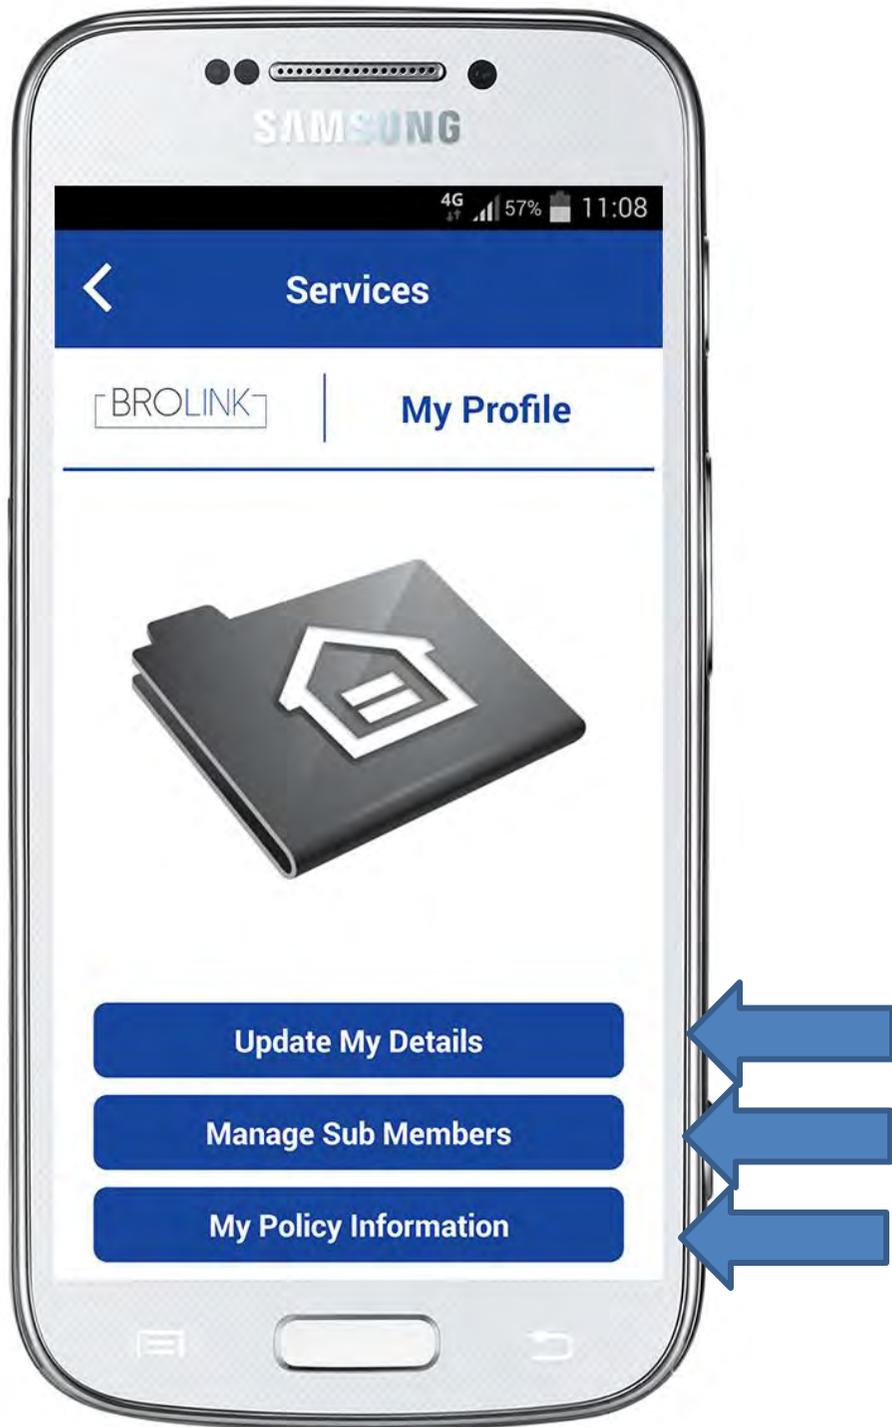

My Profile:

This allows the client to;

- Update their existing profile
- Add/manage sub members (spouse, children / drivers on commercial policy)
- View policy information

Update My Details:

Allowing the client to change personal details, add medical aid company, security company etc.

This is the information that will display on CLC's internal system once the client has pressed the panic button.

Accident Scene Guide:

A step by step guide to assist the client in collecting crucial information at the scene of an accident.

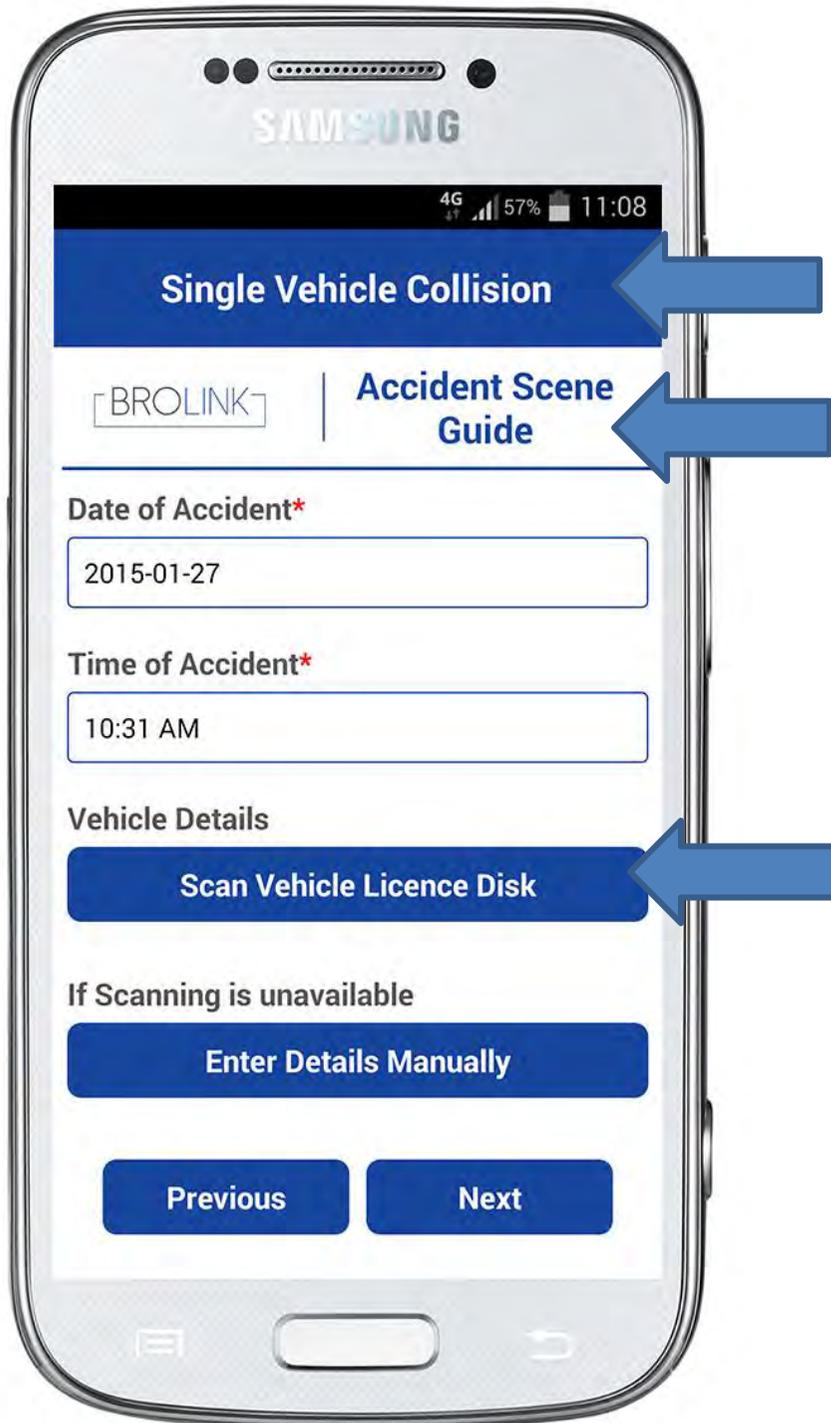

Accident Scene Guide:

The following options will be available:

- Edit/View
- Single Vehicle Collision
- Multi Vehicle Collision

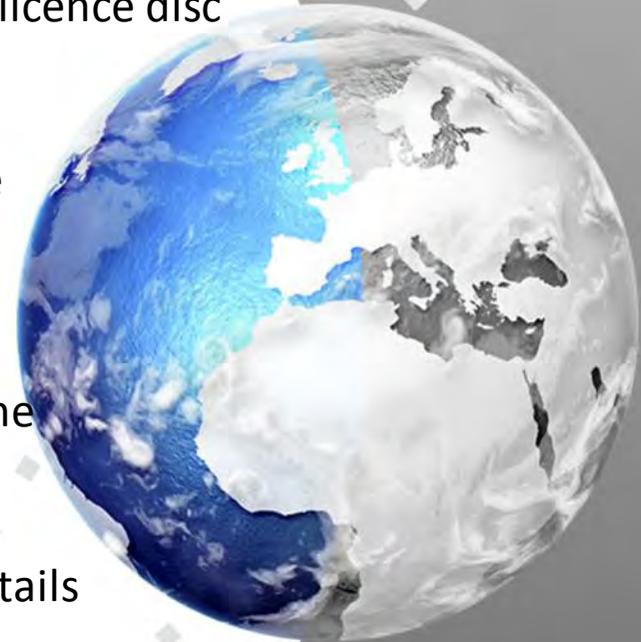

Accident Scene Guide Single Vehicle Collision:

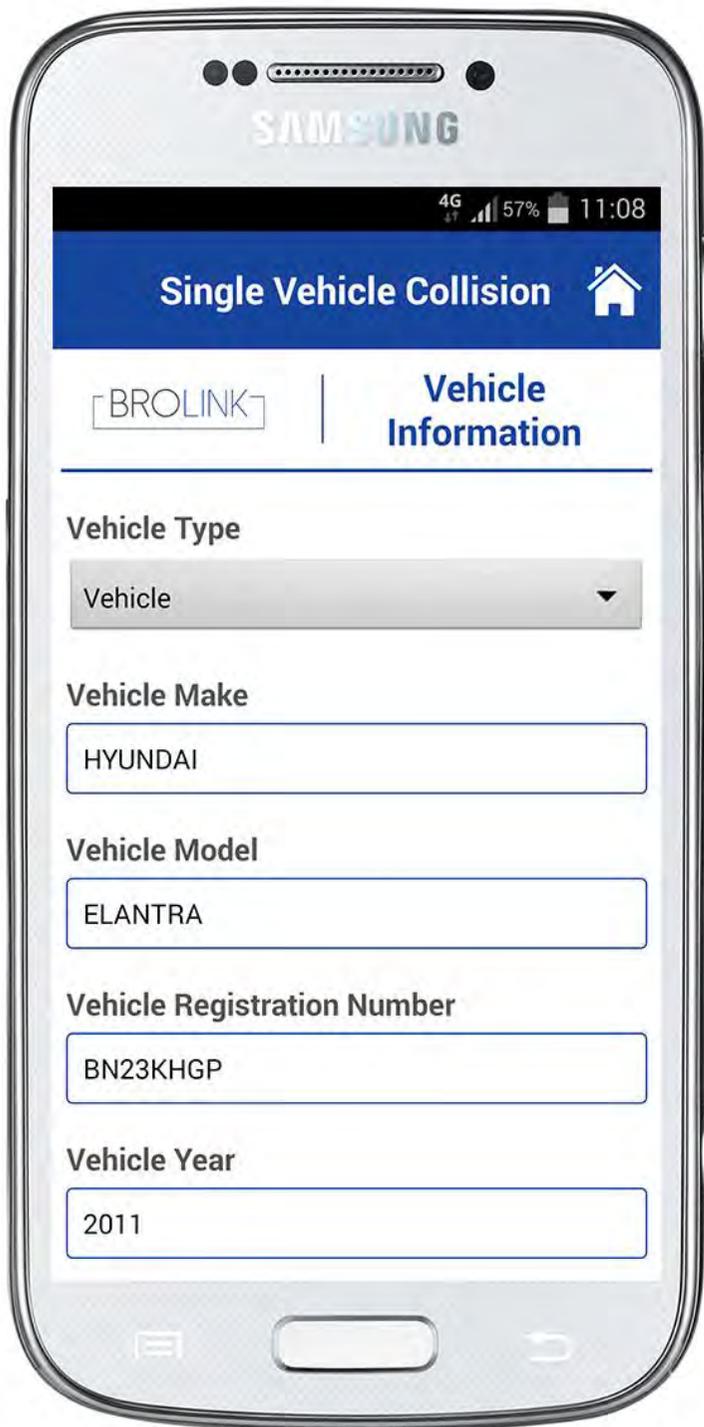

- Date & time of the accident (it will automatically use the current date and time, but can be changed manually)

Click on “Scan Vehicle licence disc” this will take you to the licence disc scanner.

- Scanning the vehicle license disc takes the hassle out of writing down the vehicle description, colour, registration no, engine and chassis no. If you cannot scan, you can enter the details manually

Click on “next”

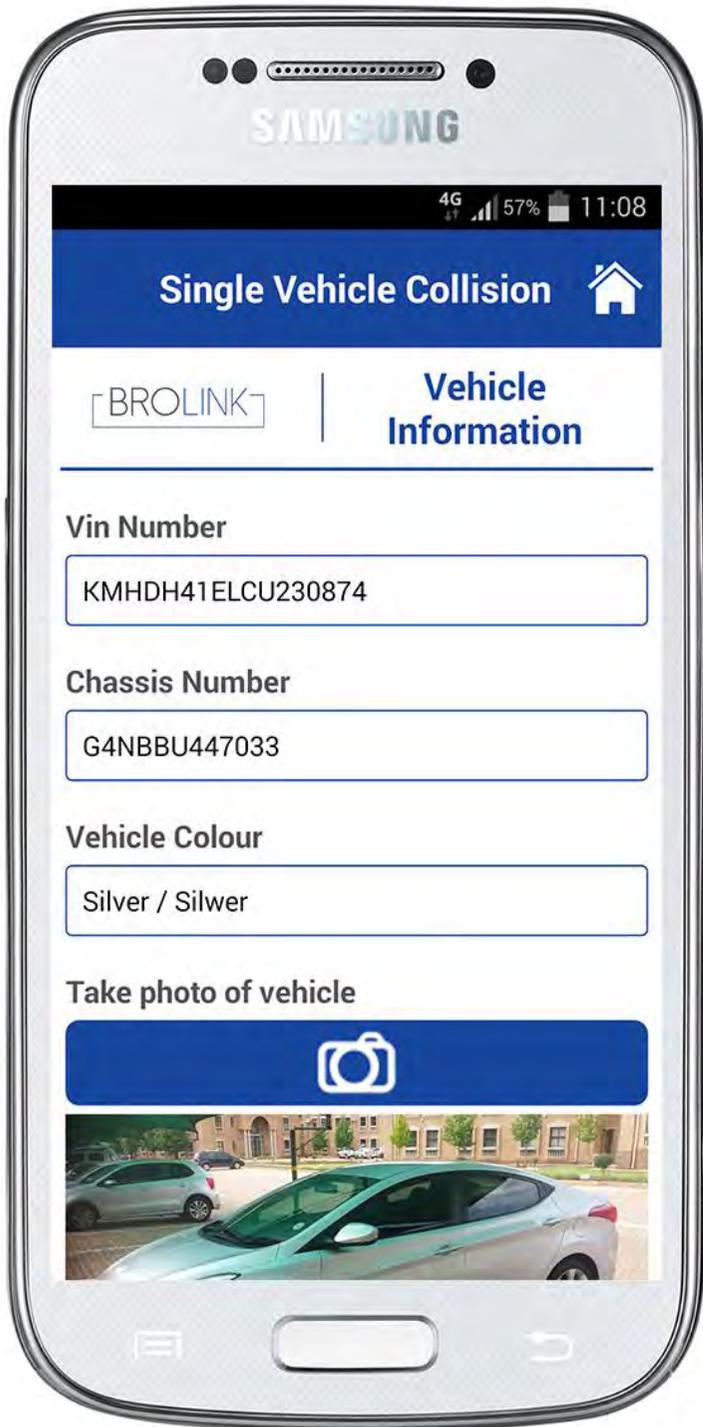

Accident Scene Guide Single Vehicle Collision:

This information will return after the scanning.

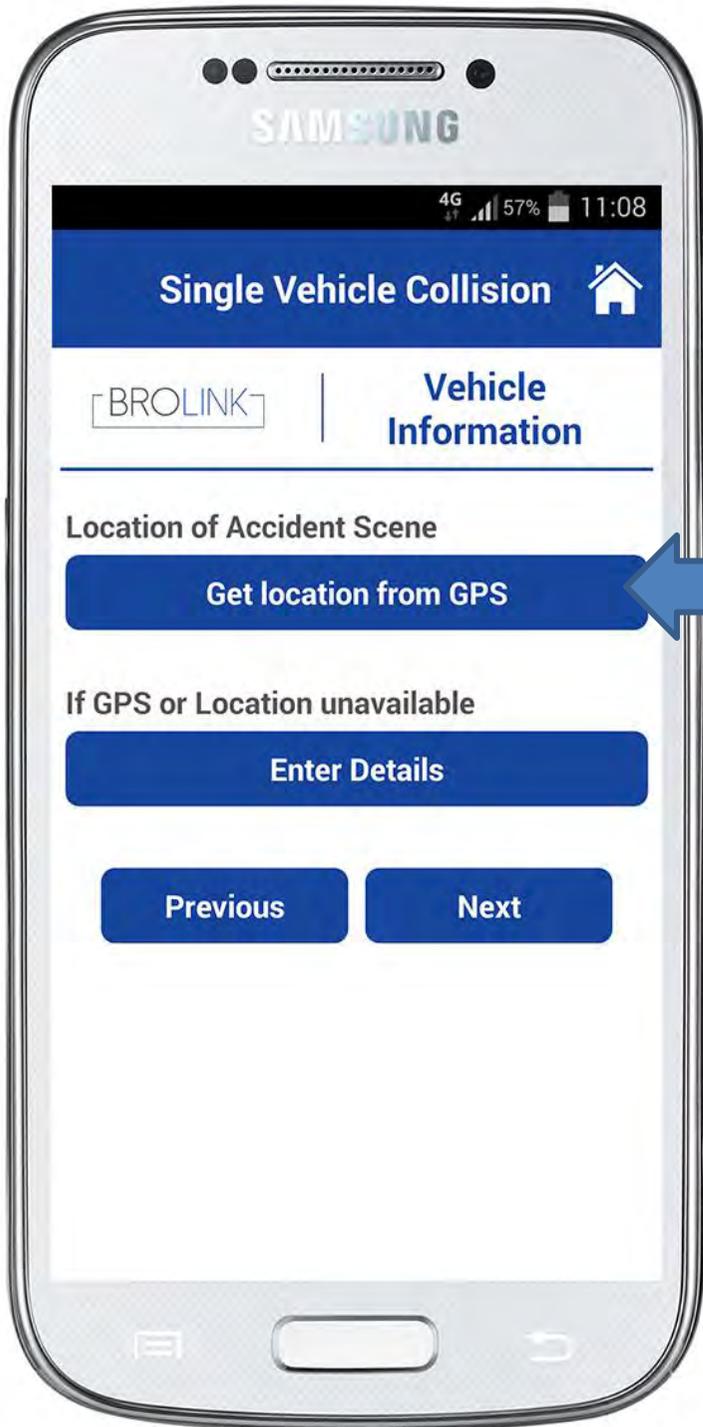

Accident Scene Guide Single Vehicle Collision:

This information will return after the scanning.

Take photo of the vehicle

This automatically opens in your phone's camera.

Accident Scene Guide Single Vehicle Collision:

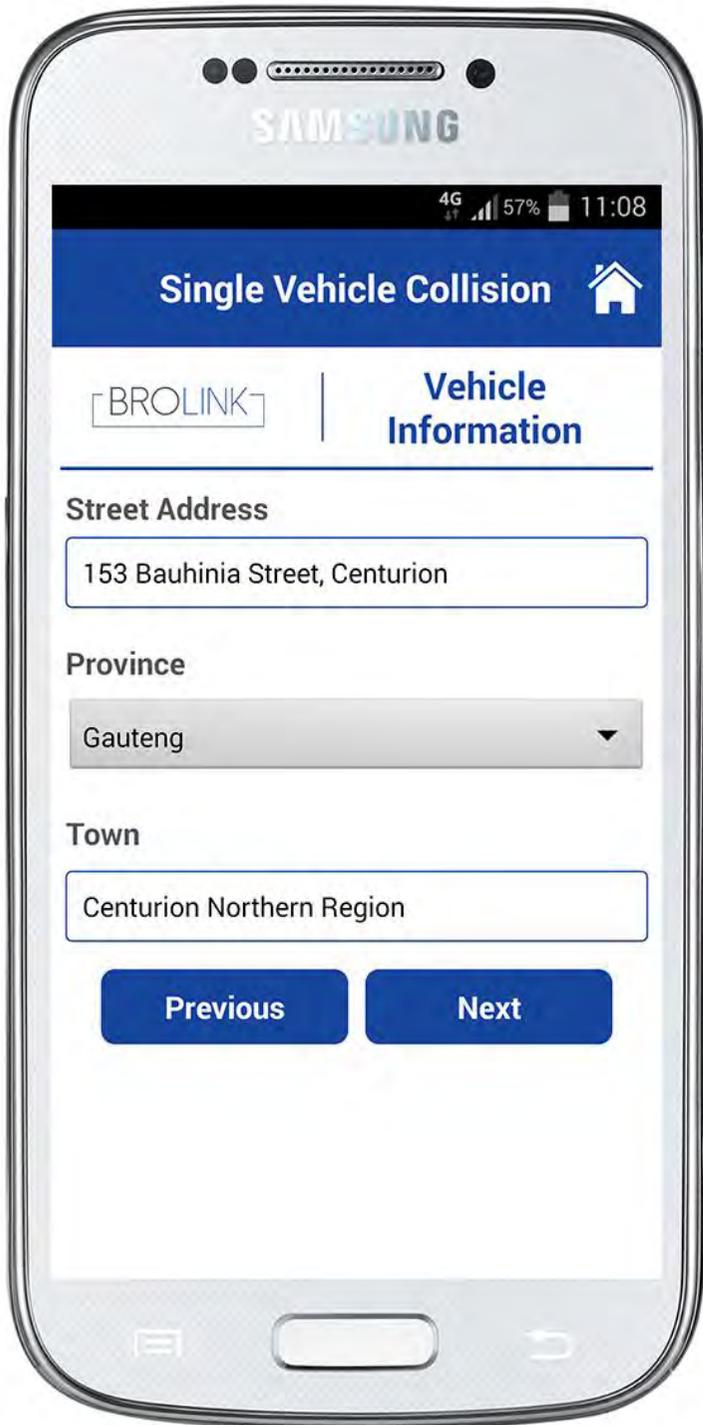

GPS Location:

If the client is on the scene where the accident happened they would be able to use the phones GPS to get the exact location.

By clicking on “Get location from GPS” this will automatically return the area details that the client is in.

Click on “next”

Accident Scene Guide Single Vehicle Collision:

This information will return after clicking on “Get GPS location”

Click on “next”

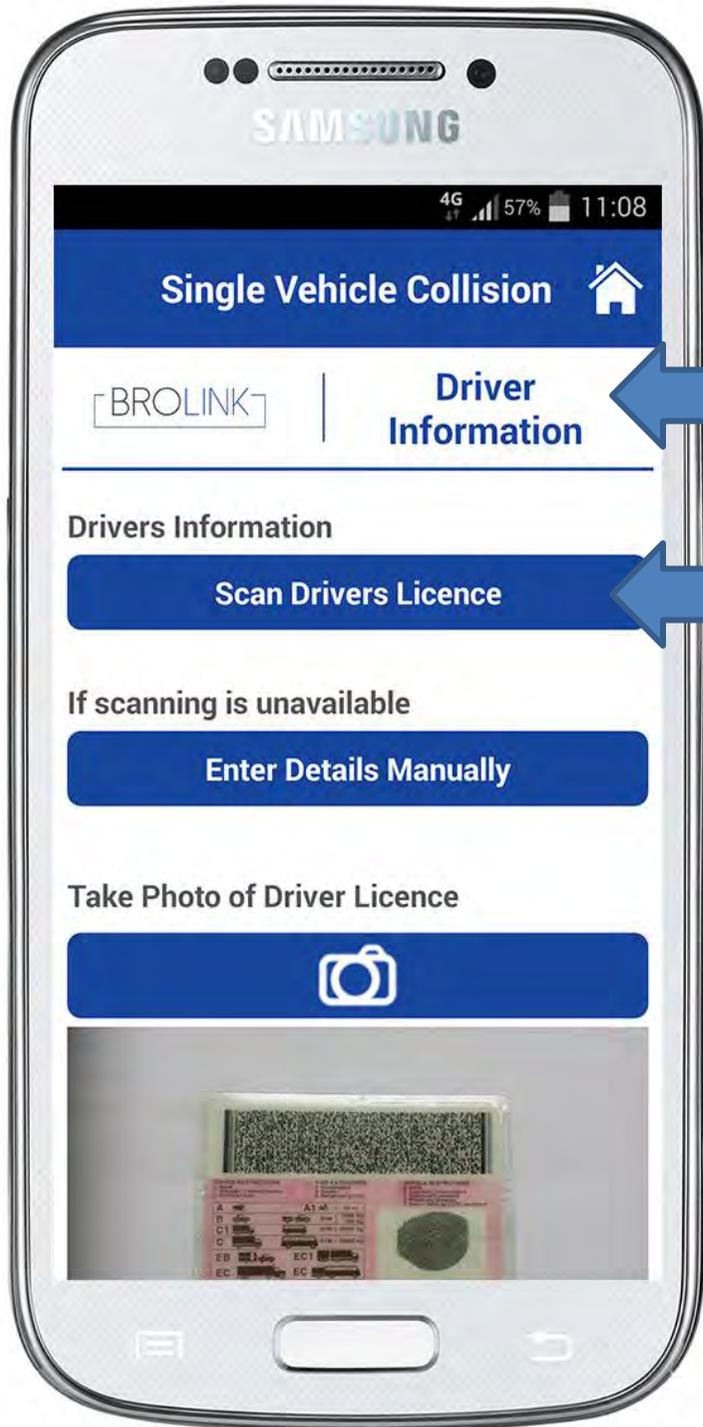

Accident Scene Guide Single Vehicle Collision:

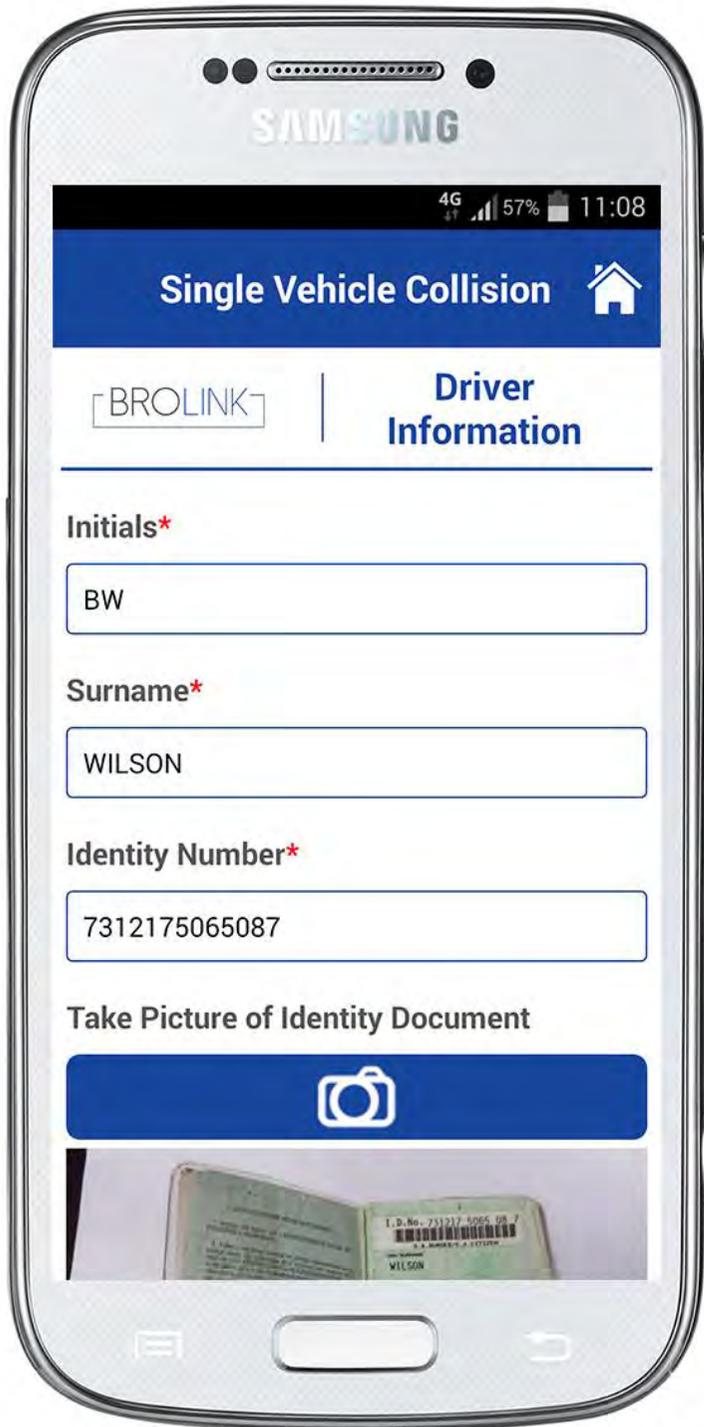

Driver Information:

Click on “Scan Drivers Licence”
This will take you to the licence scanner, scan the barcode of the drivers license, this will return the information of the driver such as:

- Initials
- Surname
- ID Number

Take a photo of the drivers licence.

Accident Scene Guide Single Vehicle Collision:

Driver Information:

This will return the following information of the driver such as:

- Initials
- Surname
- ID Number

Take a photo of identity document.

Accident Scene Guide
Single Vehicle Collision:

Witness Information:

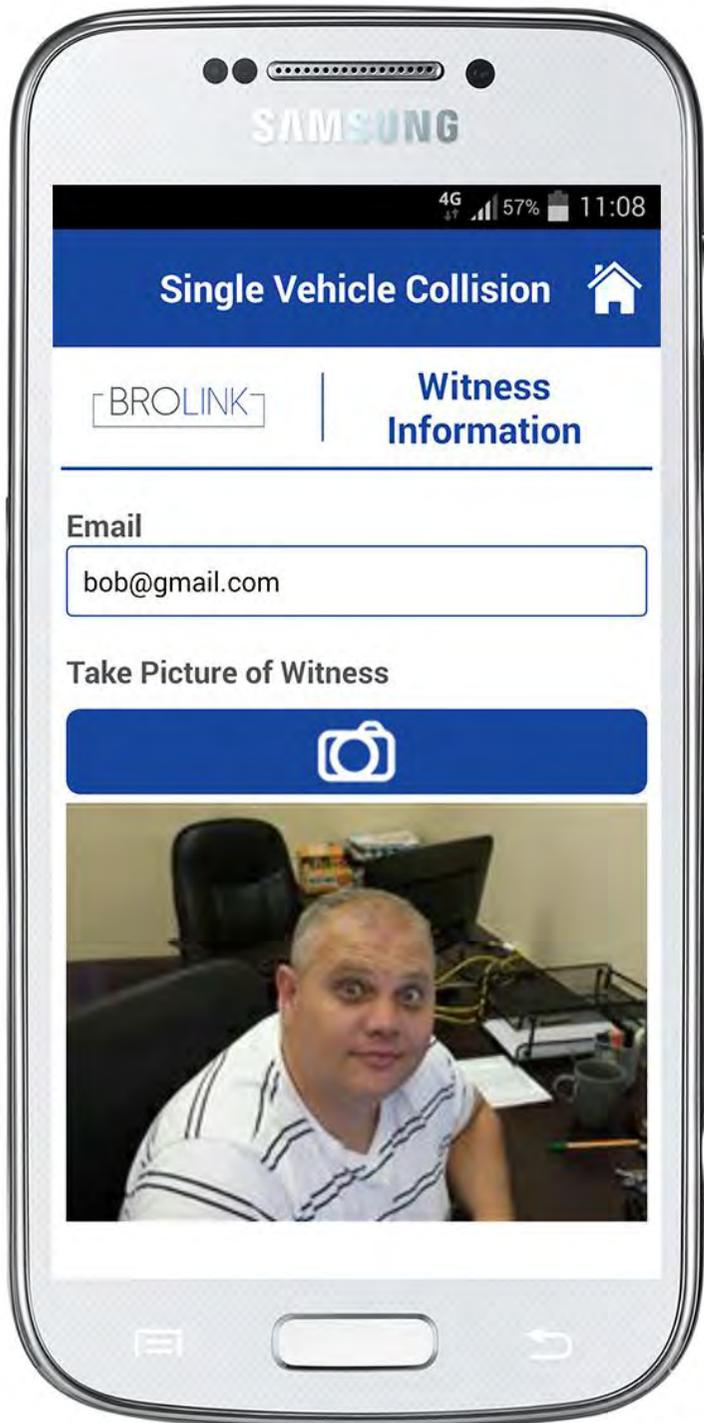

Collect witness information if available (manually enter details)

- Name
- Surname
- Identity Number
- Contact Number

The screenshot shows a Samsung smartphone displaying an app interface. At the top, the status bar shows '4G', signal strength, 57% battery, and the time '11:08'. The app header is 'Single Vehicle Collision' with a home icon. Below the header, there is a 'BROLINK' logo and a 'Witness Information' section. The form contains four input fields: 'Name' with 'Bob', 'Surname' with 'Smith', 'Identity Number' with '7312175065087', and 'Contact Number' with '0126513131'. At the bottom of the form are two blue buttons: 'Previous' and 'Next'. A blue arrow points from the 'Witness Information' header to the list of fields on the right.

Click on “next”
